INTRODUCTION

The Bureau of Land Management - primarily the Office of Aerial Photography Coordination - in an attempt to acquaint both agency personnel and others with current photo coverage of BLM lands has compiled this information summary - (Catalogue). It is not meant to provide "spot" or photo indexes - (with specific photos identified) but is a guide to give project boundary identification of areas that have been flown. All specific information regarding each project and information explaining the use of the catalogue are included in the following pages. The summary will be updated as projects are completed and accepted on a yearly basis. Any questions please contact.

Wallace A. Crisco (D-410)
Bureau of Land Management
Denver Service Center
Building 50, Denver Federal Center
Denver, Colorado 80225

FTS - 234-6036

Understanding the BLM Aerial Photo Summary

1. State dividers - with tabs for each of the states that the Denver Service Center is responsible for the aerial photo coordination.

2. Statewide Coverage Sheet - Includes numbered projects and their boundaries.

3. The following pages in this section will have corresponding numbers to the Statewide Coverage Sheet. This sheet(s) will give, on a 1:1,000,000 scale map, the area in which there is existing aerial photo coverage.

   Each page contains a block of information regarding the project:

State →		Page of	←-Number of pages needed for each project.
a.	Project code		
b.	Year flown		
c.	Scale		
d.	Film type		
e.	Focal length		
f.	Film housed at		

   a. Project Code - (BLM-AZ-77A)

      1) BLM - Bureau of Land Management
         AZ - State designation

AZ - Arizona	N - Nevada (NV on recent projects)
CA - California	NM - New Mexico (recent projects only)
CO - Colorado	O - Oregon
ID - Idaho	UT - Utah (recent projects only)
MO - Montana	WY - Wyoming (recent projects only)

   b. Year flown - year photos were taken.

   c. Scale - Photoscale

   d. Film Type

      1) B&W or B/W - Black & White
      2) N/C - Natural Color
      3) CIR - Color Infrared

      (Most projects original CIR film is housed at EROS Data Center with the B/W internegatives (when required) at DSC. See the information sheet found when necessary in each state section.)

   e. Focal Length - of the camera lens.

f. Film Housed at -

1) DSC - Denver Service Center

Bureau of Land Management
ATTN: Wallace A. Crisco (D-410)
Building 50, Denver Federal Center
Denver, Colorado 80225

2) EDC - EROS Data Center

EROS Data Center
Sioux Falls, South Dakota 57198

3) ASO - Arizona State Office
CASO - California State Office
COSO - Colorado State Office
ISO - Idaho State Office
MSO - Montana State Office
NSO - Nevada State Office
NMSO - New Mexico State Office
OSO - Oregon State Office
USO - Utah State Office
WSO - Wyoming State Office

4. State Project Index Sheet

1	BLM - MTAP (Project Code)	- 1974 (Year Flown)	- EW (Direction of Flight)	- 1:24,000 (Scale)	- B/W (Type of Film)

5. The following pages are numbered on the upper right hand corner corresponding with the first overall state coverage sheet. (The screened in area being the area covered with aerial photography.)

6. To order diazo or photo copies of line of photo indexes (depending upon availability) - Send inquiries to DSC - please mention the project code and approximate location of area of interest. Or Xerox and mark the area so that the proper index can be sent. Exact photo numbers can then be determined. Please refer to the Ordering Information and Price List page for prices, addresses, and phone number. Also note that we must have payment in hand whether a check or P.O. before an order can be started.
